In cooperation with

Organizer

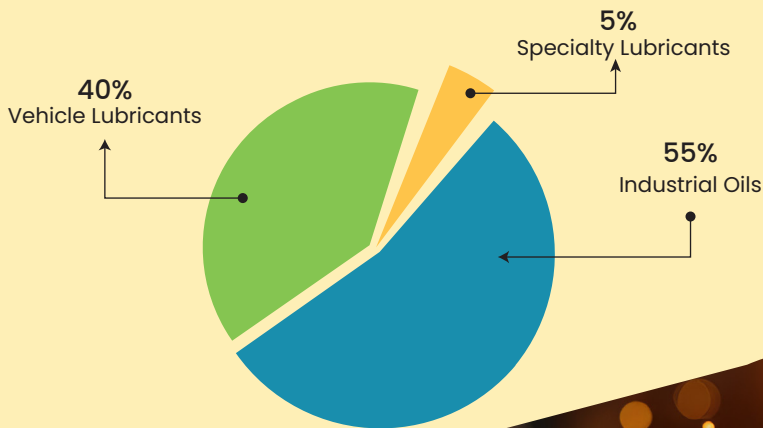

As CNG Expo and Chem Media, we set out with the mission of keeping the pulse of the industry and act as a bridge between buyers, manufacturers, and suppliers.

For over 20 years, we have successfully maintained this mission through the sectoral magazines we publish and the specific fairs we organize for the chemical industry and its sub-sectors. We organize all our fairs and publications in consultation with the companies in the industry, taking into account the requests and expectations of our customers.

At the Eurasian Lubricants Show, our aim is to bring together thousands of decision makers and the elements of the entire lubricant industry, to bring together Lubricant, Industrial Oil, Chemical and Equipment companies and all end users of the sector with buyers, and to ensure that the latest developments in the industry are presented to the participants first-hand with the conferences and workshops we will organize during the fair.

Visitors from both the lubricant and industrial oil industry and end-users can find all the products the industry needs, including finished lubricants, additives, process and production equipment, automation systems, testing and analysis services, and the latest technologies.

Lubricant and industrial oil use in Turkey in 2023 is estimated to be over 1 million tons.

Chemical, additive, lubricant, industrial oil and equipment suppliers from Turkic Republics, Eastern Europe, Russia and CIS countries will come together with R&D and procurement departments and decision makers of Middle East oil producing companies.

As lubricant and industrial oil providers, your business development, sales and marketing teams will meet with decision makers from all sectors of the industry, especially Automotive, Metalworking, Heavy Equipment, Aviation, Marine, Medical, Oil, Gas and Energy, establish business connections worth millions of euros and strengthen their relationships with their current customers.

### Exhibitor Profile

- Lubricants
- Industrial Oils
- Metal Working Fluids
- Rust Preventive Oils
- Process Oils
- Grease Oils
- Coolants
- Additives
- Raw Materials and Chemicals
- Lubricant Technologies
- Laboratory and Production Equipment
- Warehousing and Logistics Solutions
- Engineering Services

### Visitor Profile

- Automotive
- Metalworking
- Heavy Equipment
- Aviation & Transportation
- Maritime & Port
- Medical
- Consumer Products & Appliances
- Food & Beverage
- Vehicle Shop, Maintenance & Inspection
- Mining & Coal
- Oil, Gas & Energy
- Forestry & Agriculture
- Packaging
- Others

# EURASIAN LUBRICANTS SHOW

Lubricants, Industrial Oils, Chemicals, Additives and Technologies Exhibition

**1-3 October 2025** İstanbul Expo Center

## WHY EXHIBIT ?

**New Business Partnerships:** Bringing together the leading companies of the industry, Eurasian Lubricants Show opens the door to new business agreements by establishing direct connections between suppliers and buyers.

**Network Opportunities:** Eurasian Lubricants Show is the most effective way to strengthen your market presence and brand awareness. Eurasian Lubricants Show offers important opportunities to support your future projects by providing the opportunity to communicate directly with industry professionals and expand your business network.

**Meet the Latest Technologies:** Have the opportunity to discover the latest innovations in lubricant technologies and equipment.

**Platform for Information Exchange:** Through the panels and workshops organized during the fair, you can learn about the trends and regulations in the industry.
